CROPPER TOPPER

Australia's Broadacre Stubble Mulcher

Unleash the powerhouse in Stubble Management. The **Gason Cropper Topper** is engineered to mulch everything in its path, including tough cotton stubbles, with unmatched efficiency and strength. Designed for farmers seeking to elevate their soil health and streamline sowing preparation, this machine is your all-in-one solution for reducing trash and enriching your paddock.

Take control of your fields with the Cropper Topper - the industry leader for farms that demand performance, speed, and strength.

Why Choose the Heavyweight Gason Cropper Topper?

- **Unrivalled Power:** Compatible with tractors ranging from 150 to 600 HP the Cropper Topper is built to handle even the toughest stubble with ease
- **Soil Nutrition Booster:** Converts stubble into sawdust like mulch to enhance soil organic matter.
- **Faster Paddock Turnaround:** Spend less time prepping and more time planting.
- **Built to Last:** Heavy-duty construction ensures durability, season after season.
- **Efficient Trash Reduction:** Say goodbye to excessive residue and hello to a cleaner paddock.
- **Made in Australia:** Gason's innovative design combines Australia's finest raw materials with skilled manufacturing and high-quality components.
- **The Options you need:** From Deck Mounted Fan kits & Hydraulic Rear Guards to Automatic Fire Suppression Systems-Gason can provide the right option for your farming conditions.
