# DELTA SLASHERS
## Stronger, Easily Transported, Reliable, Effective

The **Gason Delta Slasher** sets the standard for heavyweight folding slashers in Australia. Weighing close to 4.5 tonnes* but folding to just 2.5 metres for easy transport-the Gason Delta is the ideal combination of strength, size and versatility.

The Delta is a favourite choice of professional contractors, councils, airports and farmers across Australia.

Designed to tame even the toughest terrain, this robust slasher excels in all environments from simple grass slashing or roadside verges to scrubland regeneration.

The Gason Delta is available in 15 or 20 Foot, in Side or Rear throw configuration with Standard or Mulch Blades. Built to an industrial standard-when you must get the job done, choose Gason.
