PREMIUM SERIES

Widespread 12 Tonne Spreader - Spread to 36m

The broadacre range of VRT Spreaders come in the largest size for maximum spread-ability. Combining the versatility of a Gason spreader with the latest innovations in technology, the VRT range will cover any of your spreading requirements.

You'll be spreading with ease with an abundance of optional extras such as load cells, tail light kit, braked axles and tarp kit.

Two supplied sets of Spinners and removable Centre Vee make these premium spreaders easily interchangeable from general purpose to granular fertiliser.

Whilst Ground Drive comes with a bin mounted tacho as standard, the Premium Series also offer a range of VRT control options for those wanting a greater level of functionality.

Maximise your capabilities with the largest of the Gason spreader range. Contractors and broadacre farmers will love the sheer capacity of these solid machines!

12 TONNE OPTIONS & EXTRAS
