

BLACK SERIES

Mounted Air Seeders

GASON[®]

GASON Black Series

For those of you who require a one machine solution, our mounted bin will complete the package for your compact planter bar. Gason Black Series seeders are the perfect fit for smaller operations!

Black Series seeders are fitted with our tried and proven Series 1 meter boxes as standard, with the option of Side Release (SR) meter system for unmatched functionality and user-friendliness on 1230 models.

Make planting hassle-free with a mounted Air Seeder attached to you planter bar. Combine with a Gason NT Series for the most compact and transportable planting setup.

Trusted by Serafin machinery in combination with their small disc seeders, this long established relationship has blossomed due to the ease of operation, flexibility of controllers and, reliability of Gason Black Series Seeders.
