

# PREMIUM SERIES

Spread to 36m

 **GASON**®

# GASON Premium Series

The broadacre range of VRT Spreaders come in the largest size for maximum spread-ability. Combining the versatility of a Gason spreader with the latest innovations in technology, the VRT range will cover any of your spreading requirements.

You'll be spreading with ease with an abundance of optional extras such as load cells, tail light kit, braked axles and tarp kit.

Two supplied sets of Spinners and removable Centre Vee make these premium spreaders easily interchangeable from general purpose to granular fertiliser.

Whilst ground drive comes with a bin mounted tacho as standard, the Premium Series also offer a range of VRT monitor options for those wanting a greater level of functionality.

## 9 Tonne

A popular size variant for good reason! The 9 tonne VRT spreader is the perfect all-rounder, with many of the benefits of its larger sibling within a smaller machine.

**KONDININ  
G R O U P®**

Field tested and proven  
to spread 36m!

## 12 Tonne

Maximise your capabilities with the largest of the Gason spreader range. Contractors and broad acre farmers will love the sheer capacity of these solid machines!

### Widespread Spreader Specifications
